DELEGATES NEED CASH? ASK THE WILSON MEN

Governor's Friends Will Keep All Who Need It in Funds Till Convention Ends.

Democratic Patriots Insist They Are Standing Out for Principle Alone.

BALTIMORE, June 30 .- "We've sent home for winter clothes," is the slogan of the Texas delegates to-day and "Stick till hell and the Chesapeake freeze over" is the new slogan of the Pennsylvania delegation. All of which, plus expression of opinion along the same lines from Underwood, Clark, Wilson and Harmon mer from other States who so far haven't grammatic battle cry but whose thoughts the Texas or Pennsylvania yells epitomize showed to-day on a visit to the headquarters of various delegations that this crowd of patriots now weekending here have made up their minds to stay put.
"So far as delegates having to go home

because they're broke," said a New Jersey manager of Wilson to a Sun reporter to-night, is "concerned, the Wilson organiza-tion is prepared this minute to take care financially of every Wilson delegate in town who is out of money and pay his expenses until the end of the convention, no matter where he hails from. And that no TRADING IN MY goes until Gov. Wilson is nominated."

Instead of letting off steam with bitter growls against Bryan, Tammany or any other leader or organization that is supposed to be responsible for the deadlock the delagates that were interviewed to West to a man devoted their time to cry ing fervently that from this on their fight is for "principle" and not against an individual. And most of them insisted quite as fervently that so far they have been able to pay expenses, thank you, and will keep right on doing so till the Chesa-peake and that other spot referred to by the Pennsylvanians is caked with ice.

story went around early to-day that shortly after last night's session was adjourned the Pennsylvania delegation had got together and had taken up a collection to go toward defraying the expenses of the poorer delegates who couldn't keep up the pace. Not on your life, was the gist of the reply at the Hotel Stafford headquarters this evening when the Keystoners were asked about the standpatter collection fund. One gathered after a talk with the Pennsylvania men that not a delegate in the body knows what poor or poorer mean.
"Some of us broke? Is that a joke?

When a call was made at the Kansas headquarters later on eyes flashed when the matter of a collection being taken up was suggested. Kansas was hurt. "No. sir, Kansas don't need no assistance no how," they said. "When Wilson has securely cinched the nomination the they said. The delegates had a bracing day of coolness spread out for them by the local weather man to-day in which to get the first good rest they've had since the convention first was touched off, and they made the most of it. Let leaders scurry about from conference to conference and dispose of them en masse or at any rate imagine they were disposing of them, as inuch as they wanted to, but to a large inagine they were disposing of them, as in the highest part of the delegations this was a hiatus in the excitement to be devoted to automobile sightseeing rides by those who had the price or by shank's mare sightseeing hikes by those that hadn't—visits to public salidings, to moruments and especially the waterfront to see real ships that wer make port at Tarheel Hollow,

day, whether from North, East, South or Governor Will Not Go to Baltimore, but He Has Some Long Distance Talks.

> SEA GIRT, N. J., June 30.-Gov. Woodow Wilson made two things very plain to-night. The first is that he will not permit any closed door trading or promsing in his name at Baltimore and, second, that he is not going to Baltimore

Both declarations were made to the newspaper correspondents in response to questions. The intimation was plain that the Governor's supporters at the con vention understood his position and will conduct themselves accordingly, no matter what the exigencies of the moment

The first declaration came after he had been told that it was reported some of his managers had sought to win the support of Charles F. Murphy. That came as near getting a rise out of a very calm man | Seltzer batted for James in the ninth and as anything has so far. Gov. Wilson cleared his throat twice and crossed his

Thereafter, in commenting on the general situation, he said:

"My predominating feeling about the whole situation is one of pride that the men who are supporting me are doing so ecause of an evident conviction that they are standing for a principle. I should feel abashed if I thought it was mere loyalty to me as an individual, deeply as that would gratify any man. I feel it is a privilege to be supported as they are supporting me and to see the support growing, as if in response to convention and public sentiment.

Gov. Wilson had planned a quiet Sunday to-day. He did not get up until near 10 o'clock and he came down stairs to find that earlier in the day a peck of telegrams had sifted in. He had but peated over and over in hotel and convention hall and there are delegates here who could use some of the big rell, too, despite the protests heard in various headlittle time to read them, for he and Mrs. Rev. COL. J.HAM LIKE OUR RUBE IS HOT AFTER A RECORD

Sunny Whiskered Statesman Has Swelled His Batting Average at Baltimore.

Temporary Permanent Chairman Chicago Beauty Blazes in All His Glory.

BALTIMORE, June 30 .- "All of which but roves," said somebody to-day after the Hon. J. Ham Lewis, Chicago's greatest son and sun, had paused momentarily in midflight to tell THE Stareporter how much the Hon. Mr. Lewis appreciates the newspaper publicity given to him during the last few days, "that the greater then man the humbler and more appreciative he is."

PRENDERGAST CALLS

COD TUIND DADTY

"When a man is a candidate for United States Senator," the Hon. J. Ham had just said to the reporter. "every one of these remarkably complimentary things you newspaper men have been saying about me helps immensely. I appreciate the kindness very much."

He gulped emotionally. In his eye was a mistiness that but added to their beauty, and one thought instinctively of mist wraiths high hanging and nebulou above a pink tinted cloud of whiskers all lit up by the last red rays of the setting

Well may the Hon. J. Ham feel elated, for not only has he received generous newspaper attention but his batting aver-NAME, SAYS WILSON age is equalled only by the Hon. William Seltzer in the great indoor contest for the honor of being selected to be temporary permanent chairman whenever Permanent nent Permanent Chairman Ollie James leaves the platform for a few minutes to confer with some one or other or to grab off a sandwich or attend to any weighty matters such as these which constantly ob up in the life of a statesman.

This temporary permanent chairmanship honor numberically is second now only to the running for Vice-Presidential nomination tag game, the tag game numbering more players partly because any one may choose up sides and tart the Vice-Presidency tag game without having to wait to be asked and partly because it may be played all over the lot whereas the contest for the temporary ermanent chairmanship necessarily is strictly an indoor sport

The Vice-Presidential lineup is a bit too vast to be given here. In the temporary permanent chairmanship contest, however, the entrants and their respective scores are as follows: Lewis batted for James in the thirteenth ballot and again in the twenty-fifth, or a total of two: eighteenth, total of two; Heffin batted for James in the fifteenth, total one; Francis batted for James in the twenty'second,

As the game progresses the entrante look with more and more jealousy at the sporting pages each day to see how their headlines in to-day's New York papers drove the temporary permanent chairthat their game here will not be called on account of the crack of doom, or before they have had a chance to but it all over

And this indoor sport here is a glorious thrill that must surcharge one when lead saengerfest comes the emotional thrill of mounting the chairman's platform at a national convention-especially at this glance of the eye or the determined set of the chin beneath one's whiskers, every pink strand of hair bristling with authority, to hold in check 15,000 high strung American patriots.

"Clear the aisles," cries the Hon. Mr. lewis for instance, when some one has moved privately that he be permitted to moved privately that he be permitted to be chairman for a while. "This disorder in the galleries and on the floor must cease. [Bang. bang. bang with the gavel.] Gentlemen, gentlemen, this dis-order positively must cease. "O-O-O-Oh, tut, tut for yours. Up an alley and forget it, old glory, or shut up and let us vote."

And then Permanent Permanent Chair-man James looms six feet four or so over the horizon, flecks the sandwich crumbs

the horizon, flecks the sandwich crumbs away, and after thanking the Temporary Permanent and offering a word of congratulation for his excellent efforts to maintain order the Temporary pauses only to jot down his score and then goes happily to the bench.

At this stage of the contest everything points to hours upon hours filled with chances like these to bat for James before all is over. Unless Contestant Seltzer makes a spurt, which is not thought probable, inasmuch as his heart is not in the game to the extent that Conin the game to the extent that Con-tes ant Lewis's is, the Hon. J. Ham will romp to victory like a house afire.

NEGROES FOR THE COLONEL. The Rev. Reverdy C. Ransom Expects They Will Join the Progressives.

In the opinion of the Rev. Reverdy C. Ransom, the negro pastor of this city who worked for Col. Roosevelt outside the convention hall at Chicago, the bolting epidemic is likely to strike the negroes of the Independent Political League whe that organization meets in annual con-vention at Philadelphia on July 3. The league is Republican and Mr. Ransom says there are many opinions as to whom it should support for President of the

United States.

"For example," said the clergyman vesterday, "the president of the league, W. A. Clifford, was in Chicago working with me for Roosevelt. Then there are men like Mr. Trotter, editor of the Boston Guardian, who are opposed to both Taft and Roosevelt, and some are for Taft. Personally I believe that three-fourths of the colored men will back the Colonel, but if there is a split in the league it will not surprise me."

FOR THIRD PARTY MEN

omptroller Asks Roosevelt Followers to Address Him Right Away.

Comptroller Prendergast, one of Col. State, issued last night an appeal to Republicans and Democrats to aid in furthering a movement for the establishment of a new party for the "defence of honesty in political work and the advocacy of genuine principles of political, social and industrial reform." Mr. Prendergast states that a provisional organization, which will be based on these principles, will be effected in this State without delay, to be followed by a permanent organization, and he asks those who are in sympathy with such a movement to communi

pathy with such a movement to communicate with him at headquarters which he has opened at 1 Madison avenue.

In the last few days Mr. Prendergast has had two conferences with Col. Roosevelt at Oyster Bay and the supposition is that the appeal is issued with the knowledge of Mr. Roosevelt. This is the appeal, which is signed by Mr. Prendergast:

At the meeting in Chicago on Saterda night, June 22, at which Theodore Roose-velt was mominated for President, a committee was appointed to organize a new party. I have the bonor of being a member of that committee representing the State of New York. It seems to me proper, there-fore, to address the voters of the State and equest their patriotic cooperation in this

I submit this appeal to men of all parties and men who have had no previous polit-cal affiliations. In the name of the already great number who have expressed their approval of a new political party, I ask Republicans and Democrats to enroll their-selves in defence of honesty in political work and the advocacy of genuine prinriples of political, social and industria reform

This new party will not be the result of sudden judgment passed upon the ommittee and the discreditable work of he Republican national convention. The necessary that a new party shall be formed but the purpose the new movement will serve is one toward which the hearts of ast few years. Third Party May Be Organized With Virgil K. Kellogg at the Head.

WATERTOWN, June 30.- Immediate steps will be taken in Jefferson county to ascertain the sentiment with reference to a third party, and an organization will doubtless be effected with Virgil K Kellogg, the champion of two successful independent judicial campaigns, one against former Attorney-General John Davies, at the head. Kellogg has long been an ardent Roosevelt man and has a big following in the county. He attended the national convention solely as a spectator.

There are many Republicans, particusupport Taft and prefer Roosevelt, although some would vote for Wilson or Harmon. The Taft reciprocity proposition has caused them to feel as they do, and they would have much the same feeling toward Champ Clark. How far they will go in the third party movement will be determined on at a meeting to be held next week.

BIG STEVE OF DENVER UNSCATHED BY CHICAGO

Roosevelt's Denunciation and Heney's Hot Words Didn't Bother Him.

HIS STATE IS FOR BRYAN

He Suggests Gov. Shafroth of Colorado May Be Baltimore Dark Horse.

Big Steve came to town yesterday. Big Steve? He's the plump man from Colorado whom Francis J. Heney, William Flinn of Pennsylvania and Theodore took turns in denouncing while the Republican convention was going on in Chicago. He is Archie M. tevenson of Denver and has been called the Republican boss of Colorado. He sat in with the Republican National Committee on a proxy and irritated Col. Roosevelt by helping to seat the Taft delegation from the State of Washington, where-upon the Colonel spoke of him as "the Guggenheim delegate," although in previous campaigns he has plugged for the

In fact, he might be taken for a well fed Bishop He reminds one too of Tom Wise, the actor. If he's the political boss that his enemies say he is, he is at least a boss who has opinions and is not afraid the public will detect them.

For instance, Mr. Stevenson approve of woman suffrage. He said yesterday that the women of every State were bound to get the franchise sooner later and ought to have it. He said that Colorado in its many years experi-ence with the voting sisterhood had found it good. He said the votes of women had helped to make the State cleaner and happier

"I have seen magazine articles saying that suffrage had worked out badly in Colorado," he said with emphasis. "The charge is unjustified. I have yet to hear of a woman voter being bribed. And you mustn't believe that comparatively few women go to the polls. The proportion of voting women is just as arge as that of voting men; in fact, I believe that it is about one and a half per

cent. larger.
"Equal suffrage will be obtained New York and everywhere else. It is undamentally just that it should. Women who earn their own living and all other qualified women have a right to vote for better laws that will improve working conditions. Suffrage will bring equalization of men's and women's wages, and that's proper too."

Just as frank was Mr. Stevenson regarding direct primaries. He does not like them and says they will be done away

"For one thing," he said, "the poor man running for office has no chance under the direct primary system. The campaign is too expensive. I remember Senator Flint of California telling me that if he had stood for reelection in California in the campaign which gave the Senatorship to John D. Works the necessary effort at the time of the primary would have cost him \$100,000.

"Moreover, the primary defeats the ourpose of the very men who are honestly n favor of it. It's a scheme of aristocracy,

not of democracy. It will pass."

Mr. Stevenson said he was not intimately acquainted with the affairs of the Champ Clark nor Gov. Wilson will be the will of the rank and file nominated at Baltimore. He suggested

nominated at Baltimore. He suggested that the dark horse might prove to be Gov. John D. Shafroth of Colorado, who has not figured in the balloting thus far. He remembered that Mr. Bryan had mentioned the Colorado Governor in the list of progressives whom Mr. Bryan some time ago said were acceptable to him. In Mr. Stevenson's opinion President Taft will carry Colorado this fall, though he admits that many Coloradans still revere Col. Roosevelt. If Bryan should happen to be the Democratic candidate—Mr. Stevenson shook his head. There are lots of Bryan men in his State, he said, and he added that if Bryan had been an avowed candidate the Colorado delegation would never have been instructed for Speaker Clark.

"Col. Roosevelt's attack on President Taft was most unjust," Mr. Stevenson said. "Roosevelt will not be elected President. If he were to be he wouldn't be President anyway; he'd be Theodore the First."

DEMOCRAT ON T. R. TICKET. George L. Record Thinks the Political Situation May So Shape Itself.

State Assessor George L. Record of ersey City, who is one of Col. Roosecelt's specially picked eighteen men to handle the August mass meeting, said last night that Mr. Roosevelt will sweep the nation next November, no matter whom the Democrats may name or despite the fact that President Taft is in the race.

Regarding the third party in New

Jersey Mr. Record said that ex-Gov. J. Franklin Fort will call a meeting for this week of the progressive Republican leaders and the Roosevelt delegates to Chicago, twenty-eight in number. At this meeting arrangements will be made for a State mass meeting to be held some time about the middle of July, probably at Trenton. Democrats will be as welcome as Republicans at this mass meeting. It is to be a progressive conference. Delegates will be selected or the national mass meeting. It is not likely that the number will be limited.
All the delegates who were at Chicago will be asked to go, as well as other prominent men who have lately joined the rooters for Col. Roosevelt.

"If the progressives lose at Baltimore we will undoubtedly have hundreds of

Bryan and Wilson supporters come over to us," said Mr. Record. "In this event there will be plenty of Democrats in the Jersey delegation to the big mass meet-ing. We will also probably have a Democrat for second place on the ticket."

DESTROY REPUBLICAN PARTY, SAYS COLBY

Independent New Jersey Senator Finds Old Parties Are All Machinery.

WEST ORANGE, N. J., June 30 .- Everett Colby, who held the view, even when he broke with the Republican machine in 1907 and was elected the independent nator from Essex county, that the of the Republican party should be from within and not from without, is now of the opinion that the time has arrived for the formation of a new party of the progressive elements of both Republicans and Democrats.

The fight should be made, he declares, win or lose, and all attempts at compromise should be abandoned. He has issued a formal statement explaining his position and declaring his belief that the Republican party should be destroyed. "No definite plans have been made by

the progressives for the coming cam-paign," says the ex-Republican, "and so can't say what will be done. My own ersonal views, however, as to the course we should adopt are very clear. There is just one thing for us to decide, namely, how can we the more successfully advance legislation that will correct abuses and help in the solution of our social and economic questions? How can we the more readily carry out a progressive programme for social reform? In the old party or in

new party? "To my view there is only one answer possible. In the old parties I hear noth-ing but the rumble of machinery. It is all mechanics, there is no life. There is no purpose. The great machine is set in motion with but one object, and that is

to retain ower and control patronage. "The progressives in each party are beating their heads against a stone wall, wasting their energies and permitting a clean cut issue between right and wrong, between social justice and injustice to become confused in a perfect muddle of ridiculous and contradictory theories as well known as ames are mentioned, and about Republicanism and Democracy and leave the matter to the convention. about Republicanism and Democracy and leave the matter to the convention.

"Win or lose, the fight should be made, the lines should be clearly marked, and all pretence of regularity, all attempt at compromise should be abandoned. No fight for progress has ever been made successfully without daring, bold and fearless break with the past.

"In some States where the progressives are in power and in some counties of New Jersey where the Progressives are in control of the party machine it seems a little hard to surrender a position of advantage acquired after years of self-sacrifice and the hardest kind of work. But the trouble is we cannot fight a wrong and at the same time accept the fruits thereof if it operates in our favor without being justly accused of inconsistency.

"I believe the Republican party to be dishonest and corrupt and I therefore consider it in the interests of the country that it be utterly and completely destroyed and that over its ashes should rise a party dedicated to the task of making this country of ours the very best place in which to toil, and the freest, most bountiful and brightest place in which to live."

SEVEN ROOSEVELT GENERALS? The Number Bobs Up Again in the Colonel's Campaign.

which to live

There was a rumor yesterday that Col ences that have been held since the return from Chicago had selected seven men to run the Colonel's campaign for

"Is that true?" said a reporter to Senator Dixon at the Hotel Manhattan last night

"It is not." he replied. He added that he would be in town two days more and probably would have something to say before leaving. He said he had spent before leaving. He said he had spent yesterday afternoon reading and sleeping.
Lindon Bates, Jr., who spoke at a meeting of the Roosevelt State party at Terrace Garden on Saturday night, said there have been several conferences of the Roosevelt elect in the last few days, but only Senator Dixon could say whether the field generals had been picked.

It was remarked by those who heard the rumor that seven Governors relayed the "call of the people" to the Colonel's ears at the beginning of the Hundred Days.

BENNET TELLS US WHY HE WOULD BE GOVERNOR

Ex-Congressman Puts Forth a Manifesto Expounding His Qualifications.

DOWN WITH THE GANGS

Proposes Also a Radical Reduction in State Expenditures -He Knows How.

Ex-Congressman William S. Bennet

set forth yesterday the platform on which he would like to get the Republican nomination for Governor of New York. One thing he would do would be to put down gangs in this city. He says that the gang with its guerrillas and gun men flourishes because its mem-bers are used for election day frauds. So, says he, make election and primary

fraud difficult by proper execution of the law and the gang will disappear. He say sthere is nothing heroic about gangs. He calls them "pickpockets, thieves and at all times potential murderers," and says they "carry on the white slave traffic."

"I should like nothing better as Gov-

"I should like nothing better as Governor," writes Mr. Bennet, "than the opportunity of seeing to it that every law against this most dangerous element in the community and against its political backers was most strictly enforced."

In a letter to Thomas H. McCarrick, secretary of the Nineteenth Assambly district Republican committee, Mr. Bennet makes known his programme. He belives that a Governor can accompileh most by setting himself a "stint." His stint, he says, would be "to wipe from the statute books the inadequate and expensive Ferris election law and secure the adoption of a nominations law in line with our platform promise." He says that both parties solemnly promised direct nominations "and neither has made an honest effort to keep its word." Other parts of the letter follow:

In our annual expenditures we are going toward the \$60,000,000 mark very rapidly.

Is this large expenditure really necessary?

The next Governor of this State can do The next Governor of this State can do one of two things: show the Legislature and the people how expenditures can be reduced, or certify for their satisfaction after a full, personal investigation that our present rate of expenditure is justified by cently had the opportunity as a private citizen to make arrangements in connection with the alien insuce which according to the figures of the State's experts will save the State at least \$7,000,000, so I know that saving and the stopping of leaks is possible. I would take up the development of the State's water power, the utilization of tillable lands in the State's ownership and the necessary changes in our State Constitution to permit a competent forester to make our forests a source of profit as the German forests are and as the national forests are becoming. Incidentally these measures would keep some persons on the farms who might otherwise leave and start a movement of city residents of foreign irth onto the land and into the forests I am simply stating my idea of what a Governor in good health could with reasons-

lose. I shall not promise a myriad of things physically impossible of accomplishment within two years.
In the hard campaign that confronts us this year the selection of a nominee to head the State ticket ought to be the deliberate. untrammelled, thoughtful expression of the

ole diligence and with the best results to the

State accomplish in two years.

Mr. Bennet also says that no man is worthy of being Governor "who cannot either accept or seek that high office in his own right proved capacity to exercise its powers." and that "better by far is free service in the ranks and self-respect than highest office if attained through the thrift that follows fawning.

ROOSEVELT IN DUTCHESS CO.

Steps to Be Taken to Organize s Third Party in Poughkeepsie.

POUGHKEEPSIE, June 30 .- Augustus B Gray, former Assemblyman, who helped Hamilton Fish to try to create some Roosevelt sentiment during the recent, primaries, said to-day that he is in touch with the Roosevelt organization in New York city and that steps will be taken to organize a third party in this Congress

Messrs. Fish and Gray did not have much success in their previous Roosevelt campaign, but Mr. Gray is confident that with more time to get the Roosevelt men together a good showing can be made at the elections this fall. Roosevelt unquestionably has a good many sup-porters in both parties in this section. Republican farmers who are disaffected toward Taft on reciprocity are expected

to support Roosevelt to support Roosevelt.

Organization Republicans declared today that the Roosevelt movement in the
Hudson River Valley will be a failure.
Aside from Messrs. Fish and Gray, Roosevelt has no backing, and whatever favora-ble sentiment has existed for him has fallen flat, and at the present time there are no indications that it can be revived. Notwithstanding this expression of con-fidence on their part, it is a fact that Roosevelt has a substantial following, especially among young men who are attracted by his Rough Rider methods, members of labor unions, Socialists and radicals of all classes.

CRANE FOR PROGRESSIVE ONLY. The Chicago Roosevelt Man May

Vote Democratic Ticket. WOODS HOLE, Mass., June 30 .- Charles R. Crane of Chicago, who was one of Roosevelt's supporters for the Presidency, is a guest here for a few days.
To-night he was asked to verify the report that he would support the Democratic nominee. He said:
"I am more interested in principles than in men. I am a progressive, and a good progressive nominated by the Democratic convention would be acceptable to me."
